Dear Judge Kollar-Kotally,

As a high school teacher in Silicon Valley, I am extremely concerned about the recent Proposed Final Judgement (PFJ) in the U.S. vs Microsoft case that you are considering. Microsoft has clearly violated antitrust laws and needs to be held accountable for their actions so that other members of the technology community are protected. I object the PFJ and urge you to be a catalyst for terminating Microsoft's illegal monopoly, deny Microsoft any benefits from its past violations and prevent any future anticompetitive activity.

Sincerely,

Hillary Brubaker
